

Let's decide how we would like to get involved

Project step	What is investigated <i>(research question)</i>	How the experiment is performed <i>(what data is collected, how duration of the experiment)</i>	Data collection <i>(when to start collecting data, how, where to recruit participants...)</i>	Data analysis <i>(de qué manera analizar los datos, con qué otras variables o datos cruzar los datos...)</i>	Dissemination <i>(what results are spread, to whom, in what scientific journal, authors of publications, impact of the study...)</i>
Here I would like to decide (with x)					
I would like to decide about...					

Decision-making scenario

We decide on <i>(the most voted)</i>	
How <i>(periodic meetings, workshops, informative note, surveys...)</i>	
How often?	
To consider...
